
SPAWNWALKER

BRAINWAVEZ (FOREST/ DARK PSY)

Soumen Nageshkar is a psychedelic music producer and DJ from Mumbai, India, currently based in the US. He explores two distinct sonic identities: Brainwavez and Ixmuk. Starting his journey into sound in 2021, Soumen dives deep into high BPM psychedelic music driven by ritual, raw energy and immersive storytelling.

As Brainwavez he crafts deep forest and dark psytrance that's hypnotic, organic and twisted, designed for the late-night hours of the dancefloor. His sound blends primal rhythms, dense atmospheres and eerie textures into trance-inducing journeys rooted in nature and the subconscious.

Under his alias Ixmuk, Soumen pushes into faster and more experimental territory. He fuses glitch, ritual sound design and abstract structure into high speed psychedelic chaos. Ixmuk is wild, unfiltered and unpredictable, embracing the edge of sonic exploration.

Together Brainwavez and Ixmuk represent two sides of a psychedelic vision. One rooted in forest mysticism, the other in experimental fire. Both seek to dissolve boundaries through sound.

Brainwavez has had the privilege of opening for a range of respected artists in the psytrance scene including Yakawrath, Bacoames, Ghazbaran, Kasatka, Hentai Camera Man, Whrikk, Manvantra and Karran Khanna. These experiences have helped shape Brainwavez's sound and presence, allowing him to connect with diverse audiences across various prominent psytrance events.
